Our Curriculum & Pedagogy

At Bloomsbury Nursery School the curriculum is designed to recognise children's prior learning and to provide first hand learning experiences. We have used contextual knowledge and data, research, the revised EYFS, supporting non statutory documents including Development matters and Birth to Five, along with observations and parental consultations, to design an evolving curriculum that is bespoke to our children and their differing needs. We will continue to review and reflect to ensure our curriculum consistently meets and reflects the needs of all children.

We have designed a curriculum that is aspirational. We have high expectations and we are committed to ensuring the children who access Bloomsbury Nursery School will make excellent progress and be ready to embark upon their next of learning once they leave us.

We believe that quality early years care and education is about developing strong, curious, confident children. It is about extending their joy, fascination and wonder at the world around them, about developing concentration, commitment and deep involvement.

Our curriculum strives to treat everyone with **equity**, celebrating difference and yet, sensitively acknowledging any barriers children may encounter in accessing early education, and the unique situations that families find themselves in.

Therefore, our curriculum is unique to our setting, reflecting and celebrating our own children and families in the opportunities we offer and experiences we share together.

We have **high aspirations** for our children and are committed to ensuring all children make excellent progress.

At the heart of all learning are relationships. At Bloomsbury we are committed to working together to ensure that everyone feels **welcome, safe, respected, included and valued.**

Our Pedagogy

The implementation of our curriculum is based on a clear pedagogy which recognises the following key principles:

Every child is a **unique child**, who is constantly learning and can be resilient, capable, confident and self-assured

Children learn to be strong and independent through **positive relationships**

Children learn and develop well in **enabling environments** with teaching and support from adults, who respond to their individual interests and needs and help them to build their learning over time. Children benefit from a strong partnership between practitioners and parents and/or carers.

The importance **of learning and development**. Children develop and learn at different rates. The framework covers the education and care of all children in early years' provision, including children with special educational needs and disabilities (SEND).

(DFE, Statutory Framework the Early Years Foundation stage, 2020).

Principles of Children's Rights:

We adopt the 'Rights of the Child' at the heart of all we do and all that we are, so that our children are healthy, can learn, are protected, treated fairly and their views are listened to.

Article 28 states that: '**Every child has the right to an education**', and Article 29 states that '**Education must develop every child's personality, talents and abilities to the full. It must encourage the child's respect for human rights, as well as respect for their parents, their own and other cultures, and the environment**'.

Other examples of rights that we adhere to and promote include; Non-discrimination (article 2) Best interest of the child (article 3) Right to be heard (article 12) Right to play (article 31) Right to freedom of expression (article 13) Right to freedom of thought, belief and religion (article 14) Right for children with a disability to live a full and decent life (article 23) Right to learn and use the language, customs and religion of their family (article 30)

Our Statement of School Values

Our values underpin our practice and we want them to run through every aspect of our curriculum. The best interests and welfare of children are at the forefront of all that we offer. Our provision is non-discriminatory, accessible and sensitive to race, gender, religion, culture, language, disability, sexuality and differing patterns of family life.

At a recent Staff Development Day, our team of Educators reflected on our vision/intention. We considered our whole school community. (Autumn 2022)

We want our children to be: Joyful, happy, engaged, confident, empathetic, persistent, to have self-belief, to know their rights, to feel valued and cared for, to develop good listening and attention skills, to be curious, demonstrate wonder, take risks, accept challenges, ask for help and develop resilience feel like nursery is a second home, to grow and thrive, to feel valued and respected, to be listened to, to have fun, to have the opportunity to be creative, to be challenged, to feel secure and comfortable, to receive early intervention, to have a good routine, to feel safe, to be protected, feel free, develop friendships, We want our children to reach for the stars. To be ready for their transition to school.

We want our staff to be: Listened to, supported, valued, respected, have access to training opportunities, to continue to develop knowledge and expertise, appreciated, praised, to work as a team, to communicate with one another, to support one another's emotional wellbeing, to develop positive relationships, to be happy.

We want our families to be: Included, to be welcomed, listened to, involved, to know their children are safe and happy, to feel like we are a safety net, to be informed on all aspects of their child's learning, respected, feel confident to approach and ask questions, to be offered support (ESOL/Family Support) to support us by respecting timekeeping etc., to be our partners.

We asked our team, 'what makes us 'us'? If you could choose things to define your setting, what would they be? Why are they so important to us at Bloomsbury?

Partnerships & Relationships	Equalities & Diversity	Communication & Language	Outdoors	Cultural Capital Experiences
<p>Recognising parents as partners in their child's learning</p> <p>Recognising and valuing parents as the child's first teacher</p> <p>Parent consultations, home visits, Celebrations – we learn and celebrate our differences positively through celebrations</p> <p>Strong, respectful partnerships with professionals who can help us and who we can learn from, to ensure very best outcomes, safeguarding & support for our children and families</p>	<p>Our children and team come from all over the world</p> <p>We are passionate about children's rights and developing a culture that has rights embedded throughout</p> <p>Our nursery is in a SOA, with extremely high levels of deprivation</p> <p>Most of our children are eligible for pupil premium</p> <p>We have very high numbers of children with additional needs, rights and entitlements (SEND)</p> <p>We recognise our global responsibility; as such we have an appreciation for culture, community, diversity and sustainability</p>	<p>We have more than 30 languages on average at any given time</p> <p>We understand that children require language to express their wants, needs, rights and entitlements</p> <p>We use Makaton as a universal language</p> <p>We are proud of our language rich environment, that has a great emphasis on developing vocabulary</p> <p>We recognise that a rich vocabulary helps children succeed in whatever they choose to do.</p>	<p>Many of our children live in tower blocks with very limited outdoor space.</p> <p>We have a beautiful, landscaped design designed to promote physicality and encourage risk taking</p> <p>All children access weekly Forest School sessions</p> <p>We have a Level 3 qualified Forest School lead</p> <p>We believe there is no such thing as bad weather – only bad clothes</p>	<p>We actively embrace every opportunity to enrich children's opportunities for learning</p> <p>We recognise that cultural capital presents in many different ways; our children are multi-linguistic, belong to faith-based communities and travel widely to visit family members.</p> <p>Our celebration of faiths and our richly diverse culture, enhances cultural capital, providing many opportunities for children and staff to learn with and from one another.</p>

What knowledge, skills and dispositions do children need to achieve by the end of their Nursery Year at Bloomsbury Nursery School?

Development Matters 2020 will inform us what the children need to achieve by the end of the nursery year in each area of learning. For the 3-4 year olds, children who will meet age related expectations will be secure at 3-4 years by the end of their nursery year. For the 2- 3 year olds children who will meet age related expectations at the end of the year will be secure at birth to 3 years. However it is crucial to consider that children learn and develop individually and at different rates. It is also important to note **that how children learn** is just as important as **what children learn**.

We have thought carefully about sequencing and progression to build on learning and skills over time. This includes a focus on communication and language, early reading, personal, social and emotional development and physical development as these underpin all learning. We have designed a progressive curriculum with an emphasis on developing key skills which we believe will enable our children to make expected progress and thrive.

We have thought carefully about the balance between adult directed and child initiated play. We strongly believe that play is a child's work; yet we recognise the need for well planned adult directed learning.

What do we want for our children at Bloomsbury? What are our intentions?

We aim for Bloomsbury nursery to be a place of possibilities where children will be nurtured, where their individual interests and talents will be valued and developed.

As a result, we hope that children's well-being will be high. They will have a belief in themselves, their rights, and their abilities. They will know that they are loved, that they are strong, capable and unique. They will have resilience and the perseverance to keep on trying when things are challenging.

We want children to have the confidence to try new things, to take risks and be physically active. We want children to be able to communicate their ideas, beliefs and feelings, choosing different ways to do this. Some children will choose to dance, others to build or draw or sing. We will celebrate this creativity and the many languages that children choose to demonstrate their thoughts, their ideas and their learning.

They will have experienced and remembered a wide range of words through stories, core books that we have carefully selected rhymes and poems. They will have the skills to make friends and will show kindness to others. They will know how to look after themselves, their friends, their school and the environment.

They will know about important mathematical and scientific concepts. They will have an understanding and respect of the world around them and the world beyond. They will have a desire to learn and be ready for their next stage in education.

Curriculum Goals

As a team we have considered and agreed Curriculum Goals for each area of the Early Years Foundation Stage.

Each goal documents our aspirations for all children, with a clear progressive pathway which documents progress through milestones. Our goals are reinforced through medium term and weekly planning; which is supported by carefully selected core books which celebrate diversity and enhance vocabulary development.

Our Goals;

Communication & Language

Through the EYFS curriculum, we intend to inspire confident communicators who can share their thoughts, feelings and opinions with others. We wish to expand the children's vocabulary and enrich it through hands on practical experiences. We want our children to communicate with confidence, in their home language as well as in English, using an appropriate system of communication. We want our children to understand that language is powerful, both verbal and non-verbal, and through language children can express wants, needs, ideas and to be able to articulate their rights.

Personal Social & Emotional Development

We want our children to be able to form positive and healthy relationships with others, showing sensitivity to their needs. To be able to play co-operatively and take on board other people's ideas. To share their ideas and implement them, asking for help and support when needed. To be able to share how they feel, develop self-regulation skills and begin to understand how their actions can affect the feelings of others.

Physical Development

To be supported to develop their sensory processing skills to enable them to respond appropriately to the physical challenges of the environment.

To be able to move confidently and safely in a range of ways, through experiencing regular movement and activity both inside and outside. This will enable children to develop their gross and fine motor skills, enabling children to excel in other areas, e.g. self-care, literacy, handwriting etc. Fine motor refers to small muscle groups including hands, wrists, fingers, feet and toes. Gross motor skills are to do with large muscle groups including the co-ordination of arms, legs and other large body parts. Your child will develop hand eye co-ordination as they use their vision to

control movements and actions of small muscles. To understand good practices with regard to healthy living, identifying healthy and non-healthy foods. To understand the importance of oral health. To safely use a range of appropriate tools and equipment. To begin to manage some risk.

Literacy-Reading

We want our children to develop a lifelong love of reading. We aim for all children to love books, to desire stories, to want to be immersed in books and have imaginations that can go anywhere. We want our children to access and enjoy a daily story and to learn nursery rhymes. By talking with our children as they read, we aim to develop children's conversation and vocabulary. Through accessing a weekly phonics session, reinforced through continuous provision, we want our children to distinguish between sounds and to clearly recognise the initial sound of their name. We seek to provide children with a wide range of fiction and nonfiction texts to inspire them to have a love of reading and to question what they read.

Literacy-Writing

We want our children to explore mark making with a variety of different media, and to know that their beautiful marks represent meanings. We want our children to recognise and to begin to write/sign their name. Through our continuous provision and planned activities, we provide a growing range of mark making activities with a purpose. Including many pre writing opportunities for children to develop the strength in their fingers, develop their dexterity and hand eye co-ordination.

Mathematics

We want our children to become confident mathematicians. To enjoy exploring number, shape and space. We want our children to enjoy participating in action number rhymes. We aim for children to confidently understand the numbers 1 - 5, with a secure knowledge of counting, cardinality, comparison and composition. We want our children to be able to say and use number words, 1,2,3,4,5. To be able to compare two or more numbers, to understand the 'how manyness' of numbers, to count or subitise to know how many. We want our children to understand that numbers are made up of other numbers, e.g. 3 is made up of 2 and 1.

Expressive Arts & Design

We intend to nurture and develop the skills and creativity that our children bring to nursery. We want our children to be confident to take part in imaginative play including singing songs and telling stories. To be able to express themselves in many ways, using many different types of media and communication. For example, through role play, art, design, construction and dance. We want to nurture our children's natural curiosity, to encourage children to question and develop their thinking skills and techniques to express their ideas and feelings.

Understanding the World

We intend to nurture and develop the knowledge and understanding that our children bring to nursery about the physical world and their local community. We want our children to understand their place in the community, with a knowledge and understanding of the world around them. We want our children to build a connection to the world around them with an appreciation for culture, community, diversity and sustainability. Our environment will be carefully resourced to represent our richly diverse community and families. We want our children talk about their similarities and differences, to develop empathy, respect and tolerance. To be caring to one another. We want our children to form positive and healthy relationships with others showing sensitivity to their needs.

How do we observe children and monitor progress?

We have developed a model of *effective, meaningful and principled* assessment of young children's learning.

By **effective**, we mean a method of assessment that ensures that all children are supported in reaching significant milestones.

By **meaningful**, we mean that the observations made inform our everyday practice and curriculum. By gaining an insight into children's thinking, feeling and needs we can plan our environment and actions to provide future possibilities for learning. By **principled**, we mean that our focus is on **observing to understand** children. We will not test children or seek unnecessary knowledge. **Children are recognised as individuals, not as a percentage in a pie chart.**

We believe the very best resource that we can give to your child is our time.

We will not spend unnecessary amounts of time writing observations or gathering evidence of children's learning. We believe that if we are **capturing** the moment, we cannot be **part** of the moment. We do not want to continually model using IPADs and Tablets; we aim instead to model curiosity, sustained shared thinking, interest and meaningful interactions.

This means there will be fewer observations posted onto Tapestry, compared to previous years. Writing up numerous observations and gathering evidence of learning takes time away from the children. Instead we have structures in place that enable us to regularly discuss each child as a team and with their family.

BEYA
Bristol Early Years Alliance

OPAL Spotlight
Edward, 48 months
Start date: January 2020
Key Person: Janine / Date: October 2020

Current Interests
Edward is always busy, inside and out and is beginning to make new friends, seeking out others to join him in his play. He loves to play with water, transporting and transferring using a variety of equipment, adding different 'ingredients'. He often chooses to play with construction sets and has been building more complex structures using the magnetic shapes, using lots of mathematical language and with great focus. Edward enjoys story time and listens well and participates in group discussions. I love how he notices tiny details in illustrations that others do not see.

What next?
To extend Edward's love of water play, adding challenge
To use Edward's interests to support/develop mark making (develop muscle strength)
To use Edward's interests to support/develop construction skills

Strategies – What will adults do to provide/support learning?
Provide lots of opportunity to extend water play – using different resources such as washing up liquid, mud, sand, glitter with a variety of different ways to transport water, including an element of construction – using pipes, guttering to create waterways, setting challenges, problem solving
Offer a wide variety of construction kits eg. Mobile, Lego and introduce Edward to woodwork – using a variety of different tools, to develop confidence and hand strength, modelling mathematical language. Plan collaborative projects to further develop Edward's friendships.

OPAL MILESTONES

Personal, Social and Emotional	Communication & Language	Physical Development	Literacy	Mathematics
MET	MET	MET	MET	MET

Is the child making progress in all areas of development? YES
Comments: I am really pleased with Edward's progress, particularly with the good friendships he is beginning to make.

Observation of Play and Learning (OP&L)

Your child's learning will be closely monitored in collaboration with you to ensure they are supported to reach significant milestones for their age.

OP&L has been devised by BEYA and works on the basis of having very simple, six-monthly child developmental milestones, which we use to monitor children's development. These milestones reflect what we believe a 'typical' child, should be able to achieve. We know that not all children will have 'typical' development. OP&L allows us to tell and celebrate each child's story and focus on the support they need from us.

The observations and assessments that we make are called 'spotlights'. We observe children's innovation, their creativity, their ideas, their intents and feelings. The insight that we gain enables us to discuss, reflect and plan our environment to support and shape future learning.

OP&L follows a simple, three step cycle:

What to expect?

There will be many opportunities throughout the year for us to come together to talk about your child and their learning.

Welcome - When your child joins us at nursery, you will be invited to a welcome meeting, held face-to-face, to talk about your child and complete necessary paper work. This is an opportunity for you to share information about your child before he/she starts nursery and complete an "All about me" form.

Settling in: Soon after your child has started nursery, we will complete a 'Starting Point.' We will meet with you to talk about how your child has settled in and to share a video and photos of your child at nursery. We will look at the child development milestones together.

Spotlight: Each child will have two 'spotlight' points in the year. We will invite you in to nursery to share the spotlight and talk about your child's learning and development.

We will give you the email address of your child's key person, for when you have important information to share.

***Please note, Tapestry (an online platform) will be used for sharing videos and spotlight forms at set points in the year.** There is also the option to contribute to your child's profile, where you can add photos or descriptions of significant moments in your child's development that you would like to share with us.

The IMPACT of our Teaching and Learning

IMPACT of our Teaching and Learning

Children's learning will be closely monitored in close collaboration with parents to ensure that all children are supported to reach significant milestones for their age. (OP&L) Children with Special Educational Needs and Disabilities will be closely monitored through individual plans (Early Support, SEND Support Provision Plans and Educational Health Care Plans) supported by the SENCo and relevant professionals.

We regularly **review our learning environments**. Staff meet at the end of every day to talk about the learning that has taken place and what we can do to enrich further learning.

Using reflective practices and strategies, we try to see our nurseries through the eyes of the children, understanding their experiences, their learning and what we can do to support them. We watch videos of children's play, study photos and share observations.

Senior Leaders, Educators, Governors, and professionals e.g. Occupational Therapists, SALT, CAT, Health Visitors, PSS, PDSS, carry out **regular learning walks** to assess the impact of the teaching and learning environment.

Staff have regular time out of class to **reflect on their key children's learning**.

We have a **commitment of staff training** which continues to build on staff knowledge of child development and the quality delivery of the early years' curriculum.

Tapestry observations and recording

The Parent's Voice

We understand that parents are the child's first teacher. We believe that through working in partnership, together we can support all children to make expected progress.

We have very close 'parent partnerships' which we value deeply. Our partnerships begin with a bespoke approach to transition into nursery, frequent phone calls and conversations when collecting the children, termly opportunities for a parent consultation, and several workshops throughout the year.

We strive to empower our parents to enable us to work in partnership to ensure all children make progress
